CITY NOTICES. Among the many apparent trifles continually being brought to the surface from the ideal underworld of the unknown, there are occasionally sunple articles costing but little in detail, but whose ombined benefits, usefulness and economy of time

and money, aggregate on the basis of millions. Such an article is Spalding's prepared glue. Its uses are innumerable, and as its cost is next to no-thing, the demand for it is universal. It is prepared with chemicals, and used cold—requiring but little skill or time for its application.—Home Journal, New Fork, Aug. 27, 1853. Proposed Amendments to the City Charter-VOTERS, ATTENTION.

The sight of his eye is gone, and his left arm and leg ontinue paralyzed; but apart from these injuries, he would appear to have suffered nothing, and his residence at his sister's house in Poughkeepsie has proved every way beneficial.

It will be remembered that much comment was excited by the uttoriy fearless manner in which Hicks conducted himself previous to his excution. He laughed at the idea of the gallows, and was only anxious, as he repeatedly said, to have "things conducted according to agreement." In this agreement it is now believed that a prominent federal officer had part; and it is on record, in the daily papers, that he was present at the execution, wearing his Deputy Marshal's badge, although no longer in the Marshal's force.

It was also remarked at the time that Hicks was only pulled up a distance of two and a half feetutterly insufficient to break his nock; and that he and return the same evening, leaving Columbia at | was only allowed to remain thirteen minutes hanging. He was then cut down and pronounced dead, after which his body was immediately handed over to the care of Doctors J. T. Bull and Henry D. O'Reilly, of Brooklyn. These gentlemen are responsible for his resurrection, and the electro-chemical bath, invented by Professor Vergnes, was the

When he took the cars for Grenoble, there was a display as he went aboard the steamer Phonix for Ottawa. The weather is pleasant, and the Prince enjoyed the beautiful scenery. Two miles below the city he was met by 1858-9. six steamers, full of passengers, and one hundred and fifty canoes manned by 1,200 lumberers, who saluted the Prince with the most vigorous cheers. We at present, invite par heard since his arrival in America, and escorted him to the city, where 20,000 people were assembled. The enthusiasm was wonderful. When he landed at sunset, a salute was fired by the volunteer artillery. The wharf was beautifu'ly decorated, and the Prince's stand was covered with scarlet cloth. The Mayor presented an address, but the effect of the ceremony was spoiled by a shower. The Prince entered the town in a closed carriage, and was escorted by the volunteer cavalry, and a procession, through
